

# **Meta English City Token (MEC)**

**Version 1.0  
May 25 2022**

## **1 – A New Perspective of English Education**

## **2 – Intelligent opportunities and experiences with the latest technologies**

## **3– ABSTRACT**

**The internet, which has recently become an integral part of us, is getting more involved in human life. Metaverse brings the inseparable internet and human relationship together and opens the doors of a new world to us. It offers brand new experiences and an unlimited universe in the virtual world. MEC develops the education system with an idea that has not been done before by adding a different perspective to the innovation Metaverse. It combines experience, which is a part of education life, with education thanks to the latest technologies.**

## **4– METAVERSE**

**Metaverse combines many technologies, including virtual reality, augmented reality, and video, where users "live" in a digital universe. Metaverse allows its users to work, play and stay connected with friends through unlimited activities, from concerts, education, games and conferences to virtual world tours. MEC creates a new path for education by taking advantage of this technology. It offers the experience, which is the cornerstone of education to users in virtual reality. MEC provides a virtual environment where students can learn and experience while walking around the city. Moreover, the student can socialize with friends and experience life while completing the education.**

## **5- MEC Ushers A New Era in Education**

**Meta English City is building the world of the future for you. It brings learning together with life experiences by presenting an efficient education to students and teachers with the latest technologies. MEC is leading the way with an education system that has never been done before, both on the Metaverse and on other platforms.**

**The perspective on education has to change for new generations and new solutions for education have to be discovered. Even as students and systems change, the only thing that does not change is experience. Therefore, MEC ushers a new era in education by combining the virtual world with education. MEC students can socialize, practice speaking and meet new people in the city where they can establish lessons. They also participate in activities within the city such as concerts.**

## **6- Virtual Reality**

**Virtual reality is a simulation of the real world or the unreal world. In virtual reality, activities can be provided in areas such as entertainment, education and business. MEC's virtual reality is built on education and investment. Meta English City is meticulously built in virtual reality. Users can create their own characters (real and unreal) and a limitless world opens for them. There are pharmacies, cafes, markets, educational areas, billboards and streets in the city. Users socialize here, meet people, and even go to concerts. The contribution of virtual reality to experience is undeniable. Therefore, MEC students reinforce their education with experience. They can try what they have learned with their friends on the streets of the MEC. Limitless educational experience awaits in MEC's virtual reality.**

## **7- Explore The City For A Unique Language Experience**

**Learning a language goes through a journey of experience. Meta English City offers a life experience more than just a language education with new technologies. MEC dispenses the opportunity to live unlimitedly and freely in daily life and to benefit from various activities in the virtual reality of the Metaverse. Studying, concerts, socializing, working and experiencing are all opportunities given by MEC. It has a comfortable and productive working environment for instructors as well as for students. Therefore, Meta English City is the right investment to earn while providing ease of learning English.**

## **8- Improve Your English, Experience Life, Discover New Things**

**MEC makes it possible to improve the English language for its students through expert teachers. As a student eager to learn English, you can reach your goals by learning and experiencing. Classes are prepared for private or group lessons that support your learning. MEC streets are carefully designed to strengthen education with experience . While exploring the city, people can chat and experience everything they do in daily life. For example, watch a movie at "Meta English City Cinemas" or enjoy fun festivals and concerts with friends.**

## **9- What can students do at MEC?**

- ☒ Learn from the experts and study in private classes**
- ☒ Improve speaking, listening and writing skills**
- ☒ Make new friends to practice with (take a break at the cafe with your friends or chat while walking around the streets)**
- ☒ Explore and experience daily life in English (Markets, taxis, cafes, pharmacies and everything imaginable on the street are available in the city.)**

## **10- Teach within your own dynamic!**

**MEC works with instructors who are innovative, productive and understand the new age, with an education system that has never been done before in Metaverse. Instructors can own their businesses and teach students regardless of time and place. A special class is created at MEC where students can learn English appropriately. While teaching a new language to enthusiastic students, they work in a virtual environment where students keep their energy and expectations high.**

## **11- A Brand-new Business World**

**MEC embraces investors who want to leave a mark in the world of the future and grow their brands. Meta English City, which has a comprehensive student profile, expert instructors and a large population, is the right address for rational investors. For investors, it is a reliable and sensible investment that can contribute to the growth of MEC as well as profit for their own brands. Brands are introduced to consumers in the areas and streets of the city. As MEC grows day by day, engagement and visibility on billboards will increase. Therefore, it appeals to more people and the right audience for their brands.**
